

RBI Grade B 2023

Previous Year Paper

Phase 1+2

#beexamready

Preface

Dear Students,

It is with great pleasure that we present to you this recollected question paper document with the answer key for **Phase 1+2 of the RBI Grade B 2023 Exam**. This document has been meticulously prepared to serve as a valuable resource for candidates preparing for the RBI Grade B Exam.

Aspiring candidates are often confused about the pattern, difficulty level and types of questions that may appear in their upcoming exam.

Each question is provided along with the answer key, helping you verify your responses and assess your level of preparation. This will assist you in effective practice, better exam familiarity, and identifying areas that need improvement.

We wish you all the best in your exam preparation journey and hope that this document proves to be a valuable asset in your pursuit of success.

Disclaimer: While every effort has been made to ensure the accuracy and relevance of the questions, there can be some variations in the question language and options. Therefore, we encourage you to use these questions as a reference point. This will help you acquire a comprehensive understanding of the syllabus and increase your chances of success in the upcoming RBI Grade B Exam.

- E. Digital Communication Acquisition

Q68. Taking forward digitization efforts announced in the Union Budget 2022-23, the Reserve Bank introduced its Central Bank Digital Currency (CBDC) in phases during the year, with the launch of pilots for Digital Rupee (e₹) in _____.

- A. Wholesale segments only on December 1, 2022
- B. Retail segments only November 1, 2022.
- C. Wholesale and retail segments on December 1, 2022, and November 1, 2022 respectively.
- D. Wholesale and retail segments on January 1, 2022, and December 1, 2022 respectively.
- E. Wholesale and retail segments on November 1, 2022, and December 1, 2022 respectively.

Q69. As per the recent advance estimates of production of major crops for agricultural year 2022-23 released by the Ministry of Agriculture and Farmers Welfare, the production of which one of the following crops did not increase from the previous year?

- A. Jawar
- B. Rice
- C. Wheat
- D. Bajra
- E. Maize

Q70. Which of the following Scheduled Commercial Banks have recorded the highest number of new branch additions in the financial year ended on 31st March 2023?

- A. Yes Bank
- B. Axis Bank
- C. Bank of Baroda
- D. HDFC Bank
- E. ICICI Bank

Q71. Under SEBI (Mutual Funds) Regulations, 1996, Mutual Funds are permitted to charge certain operating expenses for managing a mutual fund scheme. All such costs for running and managing a mutual fund scheme are collectively referred to as 'Total Expense Ratio' (TER). TER is calculated as a percentage of the Scheme's average _____.

- A. Net Asset Value (NAV)
- B. Absolute Returns
- C. Simple Annualised Return
- D. Total Investments
- E. Redemption Amount

Q72. Which among the following metals was not used to make the commemorative '75 Rupee Coin' which was launched during the inauguration of the new Parliament?

- A. Silver
- B. Copper
- C. Nickel
- D. Gold
- E. Zinc

Q73. As per IRDAI, which among the following is a criteria used to identify the Domestic-Systemically Important Insurers?

- A. Number of Branches
- B. Market Share
- C. Domestic and global interconnectedness
- D. All of the above
- E. None of the above

Q74. Recently, the Prime Minister of India attended the 3rd Summit of the Forum for India-Pacific Islands Cooperation (FIPIC) held at which of the following locations?

- A. Fiji
- B. Papua New Guinea
- C. Samoa
- D. Solomon Islands
- E. Niue

Q75. Recently, Indian security forces have been trained in _____ “Krav Maga” to counter China's People Liberation Army (PLA) during patrolling along the Line of Actual Control (LAC).

- A. Russia
- B. Caribbean Island
- C. Israel
- D. France
- E. USA

Q76. The Centre has revised the threshold for GST e-invoicing, and has announced that it will be mandatory for all businesses with annual turnover of over _____ to move to e-invoicing for business to business transactions under goods and services tax (GST) from _____.

- A. Rs 2 crore, Rs 10 Crore
- B. Rs 3.5 crore, Rs 10 Crore
- C. Rs 5 crore, Rs 10 Crore
- D. Rs 10 crore, Rs 20 Crore
- E. Rs 15 crore, Rs 20 Crore

Q77. According to the Union Budget 2023-24, the highest surcharge rate in personal income tax has been reduced from 37% to _____ in the new tax regime for income above ₹2 crore.

- A. 15%
- B. 36%
- C. 17%
- D. 25%
- E. 30%

Q78. Which among the following players has courted controversy when he wrote “Kosovo is the heart of Serbia”, depicting the ethnic tensions flared in the Balkan nation?

- A. Casper Ruud
- B. Carlos Alcaraz
- C. Novak Djokovic
- D. Rafael Nadal
- E. Andrey Rublev

Q79. The Government of India through Indian Strategic Petroleum Reserve Ltd. (ISPRL) under Phase–1 has set up Strategic Petroleum Reserves (SPR) at three locations namely Visakhapatnam, Mangalore and _____.

- A. Varanasi
- B. Padur
- C. Raipur
- D. Kolkata
- E. Ranchi

Q80. Which one of the following statements is/are correct regarding the PM KUSUM Scheme?

- 1. It seeks to increase the farmers' income**
- 2. The scheme comprises 3- components.**
- 3. It works towards decreasing environmental pollution.**

- A. Only 1
- B. Both 2 & 3
- C. Only 3
- D. Both 1 & 2
- E. All 1, 2 and 3

Quantitative Aptitude

Q81. Given below are three equations I, II and III where 'a' and 'b' are the roots of equation I where ($a < b$) and 'c' and 'd' are roots of equation II where ($c < d$). On this basis, solve for equation III and find the relationship between 'z' and 'k' given that $k = 11$

I. $3x(x - 12) + 72 = x^2 - 11x - 5$

II. $5y(y - 3) - 64 = y(3y - 2) - 19$

III. $(z + 2a - d)^2 = 169$

- A. $z > k$
- B. $z < k$
- C. $z = k$ or the relationship cannot be established
- D. $z \geq k$
- E. $z \leq k$

Q82. Given below are three equations i.e. I, II and III. If roots of the equation 'I' are 'p' and 'q', respectively such that $p > q$ while the roots of the equation 'II' are 'm' and 'n' respectively such that $m > n$, then find the value of 'K'.

I. $2x^2 - 6(x + 4) = 3x + 11$

II. $2y^2 - 12(y - 4) = 7y + 6$

III. $(15m/2) - 8q = 9p - 4n + K^2$

- A. 11
- B. 4
- C. 7
- D. 9
- E. 14

Q83. The series given below contains a missing number 'P'. Find the value of 'P' and determine which among the given three statement(s) is/are true.

74, 290, 241, 753, 672, 'P', 1551

I: The nearest perfect square number to 'P' is 1600

II: 'P' is divisible by 11

III: $(P + 28)$ is a multiple of 50.

- A. Only I
- B. Only II
- C. Only I and II
- D. Only II and III
- E. Only III

Q84. Given below are two number series I and II where the missing numbers in series I and II are 'P' and 'Q', respectively. Find the value of 'P' and 'Q' and find which among the given options gives the correct value of $(P - Q)$.

I: 5000, 4000, 3000, 2100, P, 819

II: 4, 6, 15, 56, Q, 1644

- A. 1120
- B. 1090
- C. 980
- D. 1240
- E. 1050

Q85. Given below are two number series I and II where the missing numbers in series 'I' and 'II' are 'P' and 'Q', respectively. Find the value of 'P' and 'Q' and find which among the given options gives the L.C.M of 'P' and 'Q'.

I: 77, 106, 48, P, 19, 164

II: 141, 98, Q, 63, 71, 96

- A. 1080
- B. 1200
- C. 724
- D. 960
- E. 1440

Direction (Q86-90) : Answer the questions based on the information given below.

A survey was conducted among a certain number of players who played games in at-least one of the levels i.e., National and International. Players who played only at national level played in at least one of the three trophies i.e., Ranji, Duleep and Irani while the players who played only at international level played in at least one of the two leagues i.e., CPL and BBL. Out of the total number of players, 10% had played at both levels and the number of players who played only at national level is 250 more than the number of players who played only at international level. 24% of players who played only at national level had played only Ranji which was 200 less than players who played only in CPL. Number of players who played in all three trophies i.e., Ranji, Duleep and Irani is 144 and is 52% less than the number of players who played only Ranji. Ratio of number of players who played only in BBL to number of players who played in both Ranji and Irani but not in Duleep is $25:(p + 3)$. Number of people who played only at national level but not played the Irani trophy is 630. $(2p - 0.8)$ % of the number of players who played only at national level had played only in the Irani trophy. The number of players who played only at international level and played only in CPL was $(p + 10)$ % of total number of players. $(2p + 1.6)$ % of players who played at national level had played in both Ranji and Duleep trophy. Number of players who played both Ranji and Duleep but not the Irani trophy was 125% more than the number of players who played both Irani and Duleep but not Ranji.

Q86. Number of players who played exactly in one trophy is:

- A. 650
- B. 620
- C. 690
- D. 720
- E. 740

Q87. Number of players who played only in the BBL is how much percent of the total number of players who played at the international level?

- A. 40%
- B. 30%
- C. 24%
- D. 50%
- E. 45%

Q88. Ratio of number of players who played in both Ranji and Irani trophy but not in Duleep trophy to number of players who played in both Irani and Duleep trophy but not in Ranji trophy is:

- A. 10: 9
- B. 15: 14
- C. 29: 20
- D. 39: 20
- E. None of these

Q89. Total number of players who played in CPL is:

- A. 300
- B. 500
- C. 700
- D. 750
- E. 450

Q90. Difference between number of players who played in all three trophies and number of players who played in both leagues is:

- A. $6p - 6$
- B. $5p - 6$
- C. $3p^2 - 25p + 6$
- D. $5p^2 - 45p + 12$
- E. None of these

Direction (Q91-95): Following is the data regarding the revenue and expenditure of 4 companies in 2018 and 2017. All figures are in Rs. crore.

Profit = Revenue – Expenditure

Percentage profit = $\frac{\text{Profit}}{\text{Expenditure}} \times 100\%$

	2017		2018	
	Revenue	Expenditure	Revenue	Expenditure
Mckinsey	5800	5300	6000	5000
BCG	6000	5400	5600	4800
Bain	5000	4800	5400	4800
ATK	4800	4000	5000	4000

Q91. Which company in which year has seen the maximum percentage profit?

- A. ATK in 2017
- B. BCG in 2017
- C. Bain in 2018
- D. ATK in 2018
- E. Mckinsey in 2018

Q92. Which company has seen the maximum percentage increase in profit from 2017 to 2018?

- A. Mckinsey
- B. BCG
- C. Bain
- D. ATK
- E. 2 companies have the same percentage increase

Q93. What is the sum of the numerical values of the percentage profit of Mckinsey in 2018 and Bain in 2018?

- A. 27.5
- B. 25
- C. 32.5
- D. 38
- E. 45

Q94. What is the ratio of the numerical values of the percentage profit of Mckinsey in 2017 to BCG in 2017?

- A. 45: 53
- B. 41: 51
- C. 47: 61
- D. 38: 65
- E. 33: 61

Q95. For all 4 companies combined, what is the percentage (approximately) increase in the sum of their profits from 2017 to 2018?

- A. 48%
- B. 62%
- C. 34%
- D. 55%
- E. 72%

Direction (Q96-Q100): Answer the questions based on the information given below.

Five different schools of a district participated in multiple tournaments during a year. Each school won some gold, silver and bronze medals. The pie chart given below shows the percentage distribution of the number of gold medals won by each school out of total gold medals won by all schools together.

The table chart given below shows the difference between the number of gold and silver medals won by each school and the percentage of number of bronze medals won by each school as a percentage of the number of silver medals won by that school.

School	Difference between number of gold and number of silver medals won	Percentage of number of bronze medals won by each school as percentage of number of silver medals won
A	116	84%
B	186	78%
C	104	$(3.5x+1)\%$
D	120	75%
E	144	$4x\%$

Note: Total number of medals won by school 'E' was 86 more than that by school 'D'.

Q96. Find the sum of the number of bronze medals won by school's 'A' and 'C' together.

- A. 816
- B. 664
- C. 704
- D. 752
- E. None of these

Q97. Find the ratio between the number of bronze medals won by school 'E' and the number of gold medals won by school's 'B' and 'C' together, respectively.

- A. 3: 5
- B. 4: 7
- C. 2: 5
- D. 5: 7
- E. None of these

Q98. Find the average number of medals won by school's 'C' and 'D' together.

- A. 925
- B. 890
- C. 915
- D. 935
- E. None of these

Q99. Find the difference between the number of silver medals won by school 'A' and school 'D'.

- A. $12x - 45$
- B. $8x + 45$
- C. $9x + 20$
- D. $12.5x - 15$
- E. $11x$

Q100. If the number of silver medals won by school 'B' were 'm' and the number of gold medals won by school 'D' were 'n', then find the value of $3(m - n)$.

- A. 150
- B. 250
- C. 175
- D. 225
- E. 200

Q101. The question consists of two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

A shopkeeper sold an article. Find the selling price of the article.

Statement-I: The selling price of the article is 45% more than the cost price of the article. Marked price of the article is 10% more than the selling price, and the discount offered is Rs. 870.

Statement-II: Profit made by the shopkeeper is 45%. Had the article was sold for Rs. 300 more, the shopkeeper would have earned 50% profit.

- A. The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- B. The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- C. The data either in statement I alone or in statement II alone are sufficient to answer the question.
- D. The data given in both statements I and II together are not sufficient to answer the question.
- E. The data in both statements I and II together are necessary to answer the question.

Q102. The question consists of four statements numbered "I, II, III and IV" given below it. You have to decide whether the data provided in any of the statement(s) alone is/are sufficient to answer the question.

There are only three people in a family i.e. father, mother and a child. If present ages of father and mother are in the ratio 10:9, respectively, then find the present age of the child.

Statement I: Ten years hence from now, the age of child will be 56% less than that of the father.

Statement II: Present age of a child is 70% less than that of the father and 24 years less than that of the mother.

Statement III: Six years ago, the age of the mother was 5 times the age of child. Six years hence from now, the age of father will be 28 years more than that of child.

Statement IV: Difference between present age of mother and father is 4 years and difference between present age of child and mother is 24 years.

- A. Only I
- B. Only II
- C. Only I, II and III
- D. Only II, III and IV
- E. Only I and II

Q103. Harry, Ron and Cedrick started a business with an investment of 14: 15: 20. After 5 months, Harry invested an additional amount which was $\frac{2}{5}$ th of the initial investment of Ron. 3 months after that, Ron increased his investment by an amount which was $\frac{1}{4}$ th of Cedrick's initial investment and Cedrick increased his investment by an amount which was $\frac{2}{3}$ rd of Ron's initial investment. After one year of business, the difference between the profit share of Ron and Harry was what percent of that between Ron and Cedrick?

- A. 13.33%
- B. 6.67%
- C. 16.67%
- D. 8.33%
- E. 12.5%

Direction (Q104-106): In the question, two Quantities I and II are given. You have to solve both the Quantity to establish the correct relation between Quantity-I and Quantity-II and choose the correct option.

Q104. The speed of boat 'B' in still water is 8 km/h more than that of boat 'A'. The ratio of downstream speed of boat 'A' to upstream speed of boat 'B' is 9:8. The ratio of upstream speed of boat 'A' to downstream speed of boat 'B' is 6:11. (Both the boats are travelling in the same stream)

Quantity-I: Find the sum of distance travelled by boat 'A' downstream in 125 minutes and distance travelled by boat 'B' upstream in 75 minutes.

Quantity-II: Speed of Boat 'C' in still water is 50 km/h. Find the sum of distance travelled by boats 'A', 'B' and 'C' together while travelling upstream for 1 hour. Boat 'C' is also travelling in the same stream.

- A. Quantity-I > Quantity-II
- B. Quantity-I < Quantity-II
- C. Quantity-I $\leq$ Quantity-II
- D. Quantity-I = Quantity-II or No relation
- E. Quantity-I $\geq$ Quantity-II

Q105. Quantity-I: The selling price of an article when it is marked 36% above its cost price and sold after a discount of Rs. 140 is Rs. 'P' and the selling price of the same article when it is marked 28% above its cost price and sold after a discount of Rs. 120 is Rs. 'Q'. If $P : Q = 19:18$, then find the cost price of the article.

Quantity-II: The compound interest received on investing Rs. 10,500 for 2 years at 'y%' p.a., compounded annually is Rs. 2,205. Find the compound interest received on investing Rs. 4,800 at a rate of $(y + 5)$ % p.a., compounded annually for 2 years.

- A. Quantity-I > Quantity-II
- B. Quantity-I < Quantity-II
- C. Quantity-I $\leq$ Quantity-II
- D. Quantity-I = Quantity-II or No relation
- E. Quantity-I $\geq$ Quantity-II

Q106. Which of the following pair of symbols will define the relation between Quantity I and Quantity II and between Quantity II and Quantity III respectively?

- A. =
- B. >
- C. <
- D. $\geq$
- E. $\leq$
- F. # (relation cannot be established)

'p', 'q' and 'r' are three distinct positive roots of the given equation such that 'p' > 'q' > 'r'.

$$x^3 - 9x^2 + 23x - 15 = 0$$

Quantity I: Find the value of '8p'.

Quantity II: Find the value of (q + 40).

Quantity III: Find the value of (r X 20).

- A. C, B
- B. B, C
- C. A, B
- D. B, A
- E. C, A

Q107. Arjun and Rajiv deposited Rs. 8400 and Rs. _____ in scheme A at 20% and at 10% per annum compound interest compounded annually, respectively. Also, Arjun and Rajiv deposited Rs. _____ and Rs. 3700 in scheme B at 15% and at 24% per annum simple interest, respectively. Sum of interest earned by both from both schemes together after 2 years is Rs. _____.

The values given in which of the following options will fill the blanks in the same order in which is it given to make the statement true:

I. 7200, 4120, 8220

II. 9600, 3640, 8540

III. 8000, 5400, 8772

- A. Only I
- B. Only II
- C. Only III
- D. Only II and III
- E. Only I and III

Q108. A man fell down from his boat at point 'A' which was 64 km downstream from a rescue boat which started travelling immediately for his rescue. Till the time the rescue boat reached point 'A', the man travelled with the help of a stream only. As soon as the boat reached the point 'A', the man started swimming towards the boat such that his speed in still water was 5 km/h and the boat rescued him 48 minutes after it reached point 'A'. The speed of the stream is 60% of that of the rescue boat in still water. Find the total distance covered by the rescue boat in the time it meets the man.

- A. 88 km
- B. 108 km
- C. 96 km
- D. 124 km
- E. 120 km

Q109. Paper A is in the form of a square of 130mm. Four quadrants of diameter 14mm are cut from the four corners of the square. Paper B is in the form of a rectangle whose one side is 150mm and this side is 20% more than the shorter side. Two semicircles of diameter equal to the smaller side of the rectangle are cut from both the edges of the rectangle. By what percent is the remaining area of paper B more or less than that of paper A?

- A. 61.3% more
- B. 52.3% more
- C. 61.3% less
- D. 52.3% less
- E. None of these

Q110. A natural number, N , is divisible by at most two distinct divisors of 12. What will the HCF of all possible values of N be?

- A. 2
- B. 1
- C. 0
- D. 3
- E. 4

Reasoning

Direction (Q111- Q112): In each of the questions below are given some statements followed by five conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically does not follow from the given statements, disregarding commonly known facts.

Q111. Only a few bananas are oranges. No banana is mango. No grapes are oranges.

Conclusions:

- A. Some grapes can be mangoes
- B. All bananas can be oranges
- C. Some mangoes are not bananas
- D. Some grapes are bananas is a possibility
- E. Some oranges can be mangoes

Q112. Some actors are dancers. Only a few dancers are singers. No singer is politician

Conclusions:

- A. Some politician being actors is a possibility
- B. Some dancers are not singers
- C. Some dancers are not politicians is not a possibility
- D. Some actors are singers
- E. Some actors are singers is a possibility

Direction (Q113-Q117): Answer the questions based on the information given below:

Nine friends A, B, C, D, E, F, G, H and I were born on the 18th of different months in the same year such that no one was born in March, June and November. These persons belong to different places among Solapur, Kanpur, Jaipur, Raipur, Jodhpur, Sultanpur, Udaipur, Nagpur and Firozpur. B was born in a month with 31 days and three months before the person from Raipur. Three persons were born between B and D, who is not the youngest. The person from Nagpur was born immediately after the one from Kanpur. The person from Kanpur was not born in a month with only 30 days. G is not from Sultanpur.

There is a gap of only one month between the birth of G and the one from Solapur. The person from Jaipur is five months older than G. F was born two months after D. Only one person was born between F and E, who is from Solapur. H, who is from Udaipur, was born three months after I, who is not the eldest. A is younger than C. Person from Jodhpur was born before the one from Sultanpur.

Q113. A is how many months older than H?

- A. Five
- B. Four
- C. Six
- D. Seven
- E. Eight

Q114. Who among the following persons was/were born between C and the one from Udaipur?

- I. Person from Jaipur
- II. D
- III. B
- A. Both II and III
- B. All I, II and III
- C. Both I and II
- D. Both I and III
- E. Only II

Q115. The oldest person belongs to which place?

- A. Raipur
- B. Jodhpur
- C. Sultanpur
- D. Kanpur
- E. Firozpur

Q116. ____ persons were born between the person who was born in October and the one from ____.

- A. Five, Nagpur
- B. Four, Jaipur
- C. Three, Raipur
- D. Six, Solapur
- E. None of these

Q117. The 3rd oldest person is ____ months older than ____.

- A. Three, D
- B. Five, H
- C. Seven, G
- D. Four, F
- E. Six, B

Direction (Q118-Q119): Study the following information to answer the given questions.

@ F 5 2 M \$ 7 K T R 3 C + 8 B ! 9 D Q * G 6 W N

STEP 1 – Those numbers which are immediately preceded by a symbol and immediately followed by an alphabet are written at the right end in descending order.

STEP 2 – After completing step 1, the alphabet which is immediately followed by a symbol is written between 7th and 6th element from the right end in alphabetical order from left to right.

Q118. Which of the following elements is 4th to the right of the element which is 11th from the right end in step 1?

- A. *
- B. Q
- C. G
- D. B
- E. 9

Q119. How many alphabets are immediately followed or preceded by the symbol in step 2?

- A. Four
- B. Two
- C. Five
- D. None
- E. Three

Direction (Q120-Q124): Answer the questions based on the information given below:

Nine boxes A, B, C, D, E, F, G, H and I are kept one above the other. Each box contains different items among Clothes, Bottles, Books, Watches, Combs, Pens, Mobiles, Shoes & Pencils. Number of items in these boxes is different among 7, 12, 14, 18, 21, 23, 24, 30 and 27. The bottommost box is numbered 1 and the topmost box is numbered 9.

Mobiles are kept in box 4. H is three boxes above the box with 24 items. G has 14 items and is one of the four boxes above H. Third box from the top contains the 2nd highest number of items. There are three boxes between G and the box with 18 items. Number of bottles is six more than the number of clothes. D is immediately below the box which contains clothes and neither of these boxes contains more than 23 items. There are three boxes between the box, which contains bottles and E, which contains books.

Shoes are three boxes above B. A is immediately above F. Box, which contains Pens, is immediately above I. C is three boxes above the box, which contains the lowest number of items. Box with 23 items is immediately below the box, which contains watches. Number of pencils is less than the number of combs. Number of Books is not less than the number of shoes.

Q120. C is how many boxes above the box which contains 21 items?

- A. Four
- B. Five
- C. Two
- D. Six
- E. Three

Q121. What is the sum of the number of combs and pencils?

- A. 37
- B. 35
- C. 41
- D. 30
- E. 28

Q122. Which among the following boxes is not between the box containing the lowest and highest number of items?

- I. D
- II. A
- III. Box containing 14 items.
- A. Both I and II
- B. Only I
- C. Both II and III
- D. Only III
- E. Only II

Q123. What is the difference between the number of items in the topmost box and the number of watches?

- A. 10
- B. 14
- C. 16
- D. 12
- E. 18

Q124. Which among the following boxes are kept between the box with 21 items and box containing Pens?

- A. B
- B. C
- C. D
- D. E
- E. H

Direction (Q125-Q129): Answer the questions based on the information given below.

Fourteen persons are sitting in two parallel rows containing seven persons in each row in such a way that there is an equal distance between adjacent persons. Initially, in row 1, P, Q, R, S, T, U and V are seated and all of them are facing towards the east and in row 2, A, B, C, D, E, F and G are seated and all of them are facing towards the west. Therefore, in the given seating arrangement each person sitting in row 1, is facing the persons sitting in row 2 and vice versa. They play a game of throwing a dice. They interchange their initial position according to the game rules which are as follows:

I. On throwing the dice, if an odd number comes, then the person sitting 2nd to the left of the thrower exchanges his seat with the person sitting opposite to the one, who sits immediately to the right of the thrower.

II. On throwing the dice, if an even number comes, then the person sitting immediately to the right of the thrower exchanges his seat with one, who sits opposite to the thrower.

Before Movement:

1. T sits fourth to the left of P. Either T or P sits at an extreme end of the row.
2. The one who faces P sits second to the left of F.
3. S sits exactly in the middle of the row. C and D are immediate neighbors of each other.
4. Number of persons sitting to the left of F is twice the number of persons sitting to the right of F.
5. The one who faces P sits to the immediate left of G and that person is neither C nor D.
6. Number of persons sitting between P and R is the same as the number of persons sitting between T and S.
7. T neither faces C nor D. No one sits between S and V.
8. At least two persons sit between G and E. R does not face B.
9. At most one person sits between S and Q.
10. U faces neither E nor C.
11. A throws the dice and gets 4 after that F throws the dice and gets 3 and finally, V throws the dice and gets 1.

Q125. Who sits opposite to R after the movement?

- A. D
- B. A
- C. G
- D. F
- E. C

Q126. Who sits 2nd to the right of G before the movement?

- A. A
- B. C
- C. F
- D. B
- E. D

Q127. What is the position of T with respect to V after the movement?

- A. facing the one, who sits 2nd to the right of V
- B. 2nd to the right of V
- C. 2nd to the left of V
- D. facing the one, who sits immediately to the right of V
- E. immediate left

Q128. How many people sit between A and F before the movement?

- A. One
- B. Two
- C. Three
- D. More than three
- E. None

Q129. Which of the following statements is true about B?

- A. B sits immediate right of T after the movement
- B. B sits 4th to the left of Q after the movement
- C. B sits 4th to the right of A before the movement
- D. B sits opposite to V before the movement
- E. None

Direction (Q130-Q131): In the following question, two conclusions have been given followed by five sets of possible statements. You have to take the given conclusions to be true even if they seem to be at variance with the commonly known facts and then decide for the given conclusions logically following from which of the given set of statements disregarding commonly known facts.

Q130. Conclusions:

1. Some gold is not silver.
2. Some gold is fabric.

Statements:

- A. All silver is fabric. No fabric is gold. Some gold is metal.
- B. Some silver is fabric. Some fabrics are gold. All gold is metal.
- C. No silver is fabric. All fabrics are gold. Some gold is metal.
- D. All silver is fabric. Some fabrics are metal. Some gold is metal.
- E. All fabrics are silver. All silver is gold. All gold is metal.

Q131. Conclusions:

1. Some hospitals are buildings is a possibility.
2. Some hostels are not houses.

Statements:

- A. All buildings are schools. All schools are hostels. No school is a house. No hospital is a hostel.
- B. Some buildings are schools. All Schools are hostels. No hospital is a house. Some schools are houses.
- C. All buildings are schools. All schools are hostels. No school is a house. All hospitals are hostels.
- D. Some buildings are schools. No school is a hostel. No hostel is a hospital. Some hospitals are houses.
- E. None of these.

Q132. Direction: In which of the following expressions is $V > Z$, $K < Y$ definitely true?

- A. $X \Rightarrow W > K \Rightarrow Z < Y \Leftarrow U < V$
- B. $W \Leftarrow T < V > G \Rightarrow I \Rightarrow Y > Z < K$
- C. $T \Rightarrow C < V \Rightarrow A = Q \Rightarrow Z > Y > D > K$
- D. $D \Rightarrow E = G > V = F > Z < K < Q \Leftarrow Y$
- E. $A \Rightarrow I \Rightarrow H = L < Z > K > V < J < Y$

Q133. Direction: In which of the following expression is the expression $M \Rightarrow R$ is definitely true?

- A. $X < R \Rightarrow T \Rightarrow P < N > B \Rightarrow M > U$
- B. $N > M > L = C \Rightarrow A = D > S = R$
- C. $L \Leftarrow B > M > X \Rightarrow U \Leftarrow A = O < R$
- D. $T > M = F \Rightarrow G = U \Rightarrow O \Leftarrow R = S$
- E. $A > R \Leftarrow B = L = P \Leftarrow S = M < G$

Q134. The question given below consists of two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and give an answer.

Seven persons A, B, C, D, E, F and G are sitting around a circular table having eight seats such that one of the seats is vacant. The vacant seat is to the immediate left of A's seat. All are facing towards the centre. How many people sit between G and F, when counted from the right of F?

Statement I: F sits second to the right of A and to the immediate left of D. One person sits between D and G. B sits opposite to G. C and D are not sitting adjacent to each other.

Statement II: D sits third to right of A. B sits on the third seat to the left of A. One person sits between E and F but neither E nor F sits adjacent to A. E and F are not adjacent to vacant seats.

- A. The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

- B. The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- C. The data either in statement I alone or in statement II alone are sufficient to answer the question.
- D. The data given in both statements I and II together are not sufficient to answer the question.
- E. The data in both statements I and II together are necessary to answer the question.

Q135. The question given below can be answered using sentences given in only one of the options. Find out the option which can be used to answer the question.

Eight persons A, B, C, D, E, F, G and H are sitting around a square table such that four persons are sitting in the corner of the table and four are sitting in the middle of the table. Also, the one, who sits at the corner of the table faces away from the center and the one, who sits in the middle of the table faces towards the table.

Who sits second to the right of C?

- A. Only two persons sit between C and B when counted from the right of B. A is an immediate neighbor of C and faces towards the center. E sits second to the right of A. B is second to the right of E.
- B. C is an immediate neighbor of A. Person, who is immediate left of C, is sitting opposite to G. E and F are immediate neighbors of each other. F is sitting at the corner of the table.
- C. A sits second to the right of E, who sits in the middle of the table. C is an immediate neighbor of A. D sits second to the left of C. H is an immediate neighbor of D. G sits one of the corners. B sits second to the right of A
- D. Only two persons sit between H and G, when counted from the left of H, who is an immediate neighbor of D, who sits second to the left of C, who sits immediately right of E, who sits in the middle of the table.
- E. None of the above

Q136. The question given below consists of two statements I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and give answers.

Six persons, Anu, Bill, Chand, Dia, Ema and Faiz, sit along the corners of a regular hexagonal table and face towards the centre of the table. Who among the following sits immediately to the left of Faiz?

Statement I: Bill sits second to the right of Anu. Chand sits adjacent to Bill. Dia sits second to the right of Chand. Ema does not sit adjacent to Anu.

Statement II: Ema sits adjacent to Dia. Chand sits adjacent to Bill. Dia sits second to the right of Chand. Faiz sits adjacent to Bill. Ana does not sit adjacent to Chand.

- A. Data in statement I alone is sufficient to answer the question, while data in statement II alone is not sufficient to answer the question.

- B. Data in statement II alone is sufficient to answer the question, while data in statement I alone is not sufficient to answer the question.
- C. Data either in statement I alone or in statement II alone is sufficient to answer the question.
- D. Data given in both the statement I and II together are not sufficient to answer the question.
- E. Data in statement I and II together are necessary to answer the question.

Q137. The question given below consists of two statements I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statements and give answers.

Seven points, T, U, V, W, X, Y and Z are drawn on a rectangular piece of paper. What is the direction of point W with respect to point U?

Statement I: Y is 3cm to the west of T. V is 6cm to the east of Y. U is 3cm to the south of T. W is 9cm to the east of Z. X is 6 cm to the west of W. V is 5 cm to the south of X.

Statement II: Z is 6cm to the north of U. X is 3cm east of Z. V is 5cm south of X. Y is 6cm west of V. T is the midpoint of Y and V. W, which is to the east of X, is 13cm to the northeast of Y.

- A. Data in statement I alone is sufficient to answer the question, while data in statement II alone is not sufficient to answer the question.
- B. Data in statement II alone is sufficient to answer the question, while data in statement I alone is not sufficient to answer the question.
- C. Data either in statement I alone or in statement II alone is sufficient to answer the question.
- D. Data given in both the statement I and II together are not sufficient to answer the question.
- E. Data in statement I and II together are necessary to answer the question.

Direction (Q138-Q141): Answer the questions based on the information given below.

P, Q, R are three adjacent buildings. P is to the west of Q. Q is to the west of R. Each building has a different number of floors with the lowest floor numbered as 1, floor above it numbered 2 and so on. The height of floors in each building is the same i.e. the same numbered floors are at equal height from the ground. Only a few of the floors of these buildings are taken and the rest are vacant. None of the buildings had more than 10 floors.

- D's floor number was twice as that of J's floor number.
- J lived in building Q. Q had prime numbered floors and J lived on the floor that was 3rd from the top
- Not more than 3 flats were taken in building P
- F was exactly to the east of B
- B lived exactly above C but not in the same building
- C and F did not live in the same building
- A's floor number was thrice as that of C's floor number.
- A was exactly to the west of H
- H was not in building R

- C and G did not live in the same building
 - G lived immediately below E
 - B and E lived on consecutive floors of the same building
 - I was exactly to the east of C
 - I and E did not live in the same building
 - B and G did not have the same floor number
 - The number of floors in I's building was 3 less than that in building Q
1. Only one person lives on each floor
 2. Exactly to the east or west does not mean immediate east or west, but on the same floor.
 3. Immediately above or below implies that the person is not in the same building.

Q138. How many floors were there in building P?

- A. 6
- B. 8
- C. 5
- D. 10
- E. 9

Q139. What was the floor number of F?

- A. 4
- B. 2
- C. 3
- D. 5
- E. 6

Q140. Four of the following bear a similar relation and hence form a group, who among the following is not a part of that group?

- A. B
- B. H
- C. E
- D. A
- E. J

Q141. What was the difference between the number of floors in building Q and P?

- A. 5
- B. 2
- C. 1
- D. 4
- E. 3

Q142. What was the difference between the floor numbers of H and F?

- A. 1
- B. 2
- C. 3
- D. 4
- E. 5

Direction (Q143-Q147): Study the following information carefully and answer the given questions.

A word arrangement machine given an input line of words rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement.

Input: random optimistic thrifty afraid predictable extravagant pompous humble brave pessimistic

Step 1: afraid random optimistic thrifty predictable extravagant pompous humble pessimistic brave.

Step 2: extravagant afraid random optimistic predictable pompous humble pessimistic brave thrifty.

Step 3: humble extravagant afraid random optimistic predictable pessimistic brave thrifty pompous.

Step 4: optimistic humble extravagant afraid random predictable brave thrifty pompous pessimistic.

Step 5: predictable optimistic humble extravagant afraid brave thrifty pompous pessimistic random.

Step 5 is the last step of the above input.

Input: jeopardize entrust safeguard withdrawal anxiety lengthen secular abridge spiritual ease.

Q143. What will be the fourth step of the above input?

- A. jeopardize entrust abridge anxiety secular spiritual lengthen ease withdraw safeguard.
- B. jeopardize entrust anxiety abridge secular spiritual lengthen brave withdrawal safeguard.
- C. jeopardize entrust anxiety abridge secular lengthen spiritual ease withdraw safeguard.
- D. jeopardize entrust anxiety abridge secular spiritual lengthen ease withdraw safeguard.
- E. jeopardize entrust anxiety afraid secular spiritual lengthen withdrawal ease safeguard.

Q144. In step 5th of the rearrangement, if 'anxiety' is related to 'entrust' and 'abridge' in a certain way. Which of the following would 'withdraw' be related to, following the same pattern?

- A. Lengthen and ease
- B. Ease and entrust
- C. Ease and safeguard
- D. Lengthen and safeguard
- E. None of these

Q145. Which of the following steps will be the last but one of the above inputs?

- A. IV
- B. V
- C. II
- D. III
- E. None of these

Q146. Which of the following word is 4th to left of withdraw in step 2?

- A. Ease
- B. Jeopardize
- C. Anxiety
- D. Entrust
- E. Abridge

Q147. What is the position of secular from the right end in the last but one step?

- A. Fifth
- B. Seventh
- C. Fourth
- D. Sixth
- E. Third

Direction (Q148-Q152): Answer the questions based on the information given below:

There are 3 horizontally parallel rows, row 1, row 2 and row 3. Row 1 is to the north of row 2 and row 2 is to the north of row 3. There are five people sitting in each row and L is one of them. In row 1, the first three persons sitting from left to right are facing north and the rest are facing south. In row 3, the first three persons sitting from left to right are facing north and the rest are facing south. In row 2, the first two persons sitting from left to right are facing north and the rest are facing south. Last two persons from the left end of row 1 face the first two persons from the left end of row 2. Last three persons from the left end of row 2 face the first three persons from the left end of row 3.

F, who is sitting 2nd to the right of Q, is sitting opposite to A. Three persons are sitting between A and M. F is facing south. G is sitting 2nd to the right of C and both of them are facing the north. E is sitting to the left of G. One person is sitting between E and N. B is sitting to the immediate left of D, who is sitting opposite to O, who is not sitting adjacent to A. S and P are sitting opposite to each other. Neither S nor P is sitting in row 1. R is not sitting adjacent to M.

Q148. Find the odd one out?

- A. C
- B. O
- C. N
- D. F
- E. Q

Q149. How many people are sitting to the left of S?

- A. 3
- B. 1
- C. 4
- D. 2
- E. None of these

Q150. How many people are sitting between Q and D?

- A. 2
- B. 3
- C. 1
- D. 4
- E. None of these

Q151. _____ is sitting opposite to B.

- A. D
- B. N
- C. F
- D. Q
- E. None of these

Q152. _____ is sitting in the middle of row 3.

- A. D
- B. G
- C. R
- D. Either (1) or (2)
- E. None of these

Q153. In the question given below, a passage/statement is given followed by three statements which may or may not strengthen/weaken the assertion made in the passage.

Answer the questions as per the individual direction given.

It's highly probable that 50 years from now, it is likely that the 2D internet we now all use will seem laughably archaic. Not only will the internet likely exist behind a screen, but it is probable that we will interact with it differently. We'll manipulate objects using augmented reality (AR), explore virtual-reality (VR) worlds, and meld the real and the digital in ways we can currently not imagine.

Which of the following, if true, would strengthen the argument made in the above passage?

I. Truly immersive computing and augmented reality, at scale and accessible by billions of humans in real time, will require a 1,000-times increase in computational efficiency from today's state of the art.

II. Precipitated by the pandemic, we are transitioning away from the nine-to-five commute and turning our backs on the traditional office setting, enabled by a newfound love of virtual meetings.

III. One company not only lets you see how its sunglasses look on your face, it is also working on using augmented reality to virtually show you how the world will look like through different lenses.

- A. Only I and III
- B. Only II and III
- C. Only III
- D. Only I and II
- E. All I, II and III

Q154. In the question below, a situation is given, followed by statements that may or may not be possible reasons for the situation. Select the option that best describes the reason for the situation in the question.

Situation: Drugs giant Pfizer has said it expects \$15bn (≤ 11 bn) of sales this year of the coronavirus vaccine it developed with German firm BioNTech. The vaccine was one of the first to be authorised for use by countries including the UK and the US.

I. In England, around 28 million eligible individuals are yet to be vaccinated - around two-thirds of the population

II. Many countries around the world have been scrambling to vaccinate their populations in a bid to save lives and aid economic recovery.

III. Within age groups, the NHS is trying to ensure that all people, regardless of deprivation, geography, or ethnicity, have equal uptake of the vaccine.

- A. Only I
- B. Only II and III
- C. Only I and II
- D. Only III
- E. All I, II and III

Q155. In the question below, a situation is given, followed by statements that may or may not be possible reasons for the situation. Select the option that best describes the reason for the situation in the question.

Situation: The American Academy of Pediatrics, the American Academy of Child and Adolescent Psychiatry, and the Children's Hospital Association declared a national emergency in child and adolescent mental health in the fall of 2021. This may be a contributing factor to the increase in school shooting incidents across the US.

I. During the past two decades more than 85% of school shootings in the US have been committed by people younger than 25, and the majority by children under 18

II. According to National Alliance of Mental Illness, nearly 20% of high school students have seriously contemplated suicide, and 9% have attempted suicide.

III. While in the past it was easier for adolescents to talk to a trusted adult in their extended family during turbulent times as it was common for three generations of a family to live nearby, it has become rare these days with the prevalence of nuclear families.

- A. Only I and II
- B. Only III
- C. Only II and III
- D. Only I and III
- E. All I, II and III

Direction (Q156-Q160): Read the following and answer the questions:

In a certain coded language,

'Calm breeze blows softly' is coded as '6s# 17j\$ 10m! 3t\$'

'Happy kids play outside' is coded as '9x? 10e@ 17i& 8u%'

'Bright moon shines high' is coded as '18p\$ 0r& 14p# 1j*'

Q156. What may be the code for "Mentioned"?

- A. 9k*
- B. 9m*
- C. 8k*
- D. 6l?
- E. 9m#

Q157. What is the code for "Parenting"?

- A. 7g?
- B. 7r*
- C. 9g?
- D. 7g\$
- E. None of these

Q158. Code '2x!' is for which of the following words?

- A. Chronicle
- B. Dormant
- C. Cool
- D. Calibri
- E. Charisma

Q159. How is the word "Vikram" coded as?

- A. 3n*
- B. 9n(
- C. 13m?
- D. 9n*
- E. 7k!

Q160. How the word "banking selection" be coded as

- A. 5n& 5l@
- B. 9k! 5l@
- C. 5m# 5k\$
- D. 6a\$ 9k!
- E. 4m# 6l%

Q161. The question given below consists of a statement, followed by two arguments numbered I and II. You have to decide which of the arguments is a 'strong' argument and which is a 'weak' argument.

Statement: Should social media platforms such as Whatsapp, Signal and Facebook be required to obtain licences to operate in a country just like telecom companies both of which provide services like voice calling, messaging and video calling?

Arguments:

I. Yes, because it will create a level playing field by making social media platforms liable to pay taxes and levies that telecom companies already do.

II. Yes, this will ensure social media platforms' compliance with security requirements, lawful interception and other regulatory obligations imposed on.

- A. Only argument I is strong
- B. Only argument II is strong
- C. Either I or II is strong
- D. Neither I nor II is strong
- E. Both I and II are strong

Q162. The question given below consists of a statement, followed by two arguments numbered I and II. You have to decide which of the arguments is either a 'strong' argument or 'weak' argument or both or neither of them is 'strong' or 'weak'.

Despite the popularity of economic liberal ideas and globalization, the increasing severity of energy and environmental problems has raised many questions about the ability of markets to solve these problems. The Kyoto Agreement ultimately resulted in the creation of a market-based system. The privatization of environmental problems has helped to reduce greenhouse gas emissions while generating significant amounts of wealth.

Arguments:

I. Yes, it is important to balance economic goals with environmental protection to ensure a sustainable future for generations to come.

II. No, economic liberal ideas and globalisation directly help in conserving climate and thereby there is no need to implement the market-based system.

- A. Only argument I is strong
- B. Only argument II is strong
- C. Either I or II is strong
- D. Neither I nor II is strong
- E. Both I and II are strong

Q163. Each question given below consists of a statement, followed by two arguments numbered I and II. You have to decide which of the arguments is a 'strong' argument and which is a 'weak' argument.

Statement: Should the demand of exporters, who are facing liquidity challenges, for extending GST (Goods and Services Tax) exemption on freight be met?

Arguments:

I. Yes, because GST on export freight is revenue-neutral as exporters can claim a refund after making the payment, so extending the exemption will improve exporters' liquidity.

II. Yes, because GST on export freight is levied by the central government, which has the discretionary powers to provide exemption from the tax.

- A. Only argument I is strong
- B. Only argument II is strong
- C. Either I or II is strong
- D. Neither I nor II is strong
- E. Both I and II are strong

Q164. Read the following group of statements and identify the main conclusion in the argument.

Considering the rate at which these photovoltaic panels are being installed around the country, India is expected to generate an enormous amount of waste over the next 20 years. In fact, India is expected to become one of the top five leading photovoltaic waste producers worldwide by 2050. India should note that it doesn't find itself caught unprepared against a new problem in the future for two good reasons.

First, simply clubbing PV waste with other e-waste could lead to confusion. Secondly, the waste generated from PV modules and their components is classified as 'hazardous waste' in India.

- A. Implementing e-waste management programs can be expensive and may require significant financial resources.
- B. E-waste management requires specialized equipment and technical expertise, which may not be readily available in all areas.
- C. E-waste management often involves complex regulations and requirements that can be difficult to navigate.
- D. India should formulate and implement provisions specific to PV waste treatment within the ambit of the e-waste guidelines.
- E. Now is the right time for it to install clear policy directives, well-established recycling strategies, and greater collaboration to tackle waste.

Q165. In the question below, two statements (I) and (II) are given. These statements may be either independent causes or may be effects of independent causes or a common cause. One of these statements may be the effect of the other statement. Read both the statements and decide which of the following answer choices correctly depicts the relationship between these two statements.

I. Long forced to take a back seat to the arabica bean, robusta is now becoming the flavour of note for the speciality coffee industry.

II. Everyone, from planters to roasters and coffee companies, is promoting robusta, looking at new flavour extraction processes more suited to the bean's unique properties, trying to extract complex flavours from the bean - unheard of even a couple of years ago.

- A. Statement I is the cause and statement II is its effect
- B. Statement II is the cause and statement I is its effect
- C. Both the statements I and II are independent causes
- D. Both the statements I and II are effects of independent causes
- E. Both the statements I and II are effects of some common cause

Q166. In the question given below, a passage/statement is given followed by three statements which may or may not strengthen/weaken the assertion made in the passage. Answer the questions as per the individual direction given.

If every crevasse in your home is overflowing with objects you haven't used in more than five years, it would be fairly safe to say you are a hoarder. And if the very thought of parting with possessions you no longer need creates distress, you may have hoarding disorder. You are not alone - most Indians are known for hoarding, a habit probably triggered by generations of making do and not having enough.

Which of the following, if true, would strengthen the argument made in the above passage?

I. Collectors typically acquire possessions in an organised and targeted fashion whereas hoarders acquire objects impulsively, with little active planning.

II. A typical Indian middle-class family has a room exclusively for holding all the big and small items hidden by generations of family members.

III. Most Indians are constantly worrying about survival, prompting them to keep things in case they are needed in the future.

- A. Only I and II
- B. Only II
- C. Only I and III
- D. Only II and III
- E. All I, II and III

Direction (Q167-Q170): Answer the following questions on the basis of the information given below.

Eight people Alex, Ben, Charlie, Daniel, Peter, Quinn, Rachel, and Sophia are seated around a circular table facing the centre. Some information about their relationships and position is given:

Sophia's husband is sitting two seats to the right of Ben.

Quinn is seated two seats to the left of Daniel's daughter.

Quinn is Rachel's sister.

Sophia's husband is not sitting next to Quinn.

There is one person between Quinn and Alex.

Similarly, there is one person between Peter and Sophia's mother.

Alex is the father of Rachel. Charlie is not sitting next to Quinn.

Sophia's mother is seated immediately to the right of Daniel, who is Sophia's brother.

There is one person between Sophia and Rachel.

Peter is not sitting next to Rachel, who is the mother of charlie.

Q167. Who is sitting second to the right of Ben?

- A. Rachel
- B. Alex
- C. Quinn
- D. Peter
- E. Sophia

Q168. How many people are seated between Quinn and Alex?

- A. Three
- B. Four
- C. Two
- D. One
- E. None

Q169. Who is the sister of Rachel?

- A. Quinn
- B. Charlie
- C. Peter
- D. Sophia
- E. Ben

Q170. What is the position of Peter's grandmother with respect to Quinn?

- A. 2nd to the right
- B. 3rd to the right
- C. 3rd to the left
- D. 4th to the right
- E. 5th to the left

English Language

Direction (Q171-Q177): Read the following passage and answer the questions based on the available information.

The National Education Policy (NEP) 2020 has rightfully identified 21st century skills as fundamental to developing creators. Critical thinking and problem solving, communication and collaboration, creativity and innovation, flexibility and adaptability, initiative and self-direction, social and cross-cultural interactions, and productivity and accountability all strengthen the individuals' abilities at the workplace.

Relying on traditional literacy and numeracy alone will not suffice and tends to marginalize differently abled learners. Educators could consider a design-based approach where students concentrate on a subject for two-three weeks to examine how it can be applied in the real world. But does our current classroom and content-heavy syllabus enable deep work? Also, how do we retrain teachers who have been trained in traditional systems? They know terms like 'constructivism' but do not know how it should be used in a classroom that is focused on exams rather than learning. And how ready are our future educators?

In a semester-long study that used Wikipedia as a pedagogical tool for teacher training, 65 pre-service (B.Ed) teachers were asked to improve the pages on Wikipedia related to educational concepts. Excluding a few, the content created by most participants was either sent back to them or deleted by neutral editors of

Wikipedia. The content, it was found, was plagiarised, did not provide citations, lacked basic writing and grammar skills, etc. After three iterative cycles that were emotionally intense, the teachers were able to contribute content to over 75 Wikipedia articles in English and over 50 articles in Kannada, Tamil, Telugu, Hindi, Malayalam, Gujarati, Assamese and Punjabi. All the content was related to educational technology. The critical feedback from various Wikipedia editors was crucial because it was unbiased. This feedback forced the learners to re-evaluate their skills. This shows that constant engagement, an emotional connection, and immersive learning are important parts of education. EdTech apps can deliver content that caters to multiple learning styles, learning curves and pace of learning. The pandemic has shown that traditional teacher and brick-and-mortar schools may become obsolete if radical pedagogical changes do not follow.

Q171. Which of the following measures has been suggested in the given passage for improvement of the education system?

- A. Educators will have to find ways to minimize their engagement strategies while integrating technology into their approach.
- B. Both (a) and (c)
- C. Educators can use a method in which students focus on a topic for a few weeks to see how it might be used in actuality.
- D. An individual must be motivated enough to remain immersed in a specific activity to be creative and happy.

E. All are correct.

Q172. Which of the following were not among the shortcomings in the content provided by the teachers for the first time?

- A. Copying was found in the content.
- B. They just stated the obvious facts.
- C. There were no references in the material.
- D. Basic grammar and writing abilities were lacking in the text.
- E. None is incorrect.

Q173. The author is in line with-

- A. Children have lost all personal contact with their social group due to the pandemic.
- B. The field of education is not evolving over time, with contemporary methods not able to find place in the classroom in a traditional setup.
- C. Over-reliance on technology comes at a cost.
- D. Education requires continual involvement, emotional connection, and deep learning.
- E. None of these.

Q174. Which of the following ironies has been mentioned in the given passage?

- A. The disruptive nature of digital tools has thrown up interesting challenges to the traditional education system.
- B. Teachers are familiar with concepts like "constructivism," but are unsure how to use it in the classroom.
- C. Parents are forced to rely upon technology to provide their children constant gratification to keep them engaged.
- D. Both (a) and (b)
- E. None of these.

Q175. Which of the following is not among the qualities that can support an individual to develop his abilities at the workplace?

- A. Teamwork and interaction
- B. Interactions on a social and cross-cultural level
- C. Versatility and flexibility
- D. Problem-solving and critical thinking
- E. None is incorrect.

Q176. Which of the following words is the synonym of “intense”, as highlighted in the given passage?

- A. Catalytic
- B. Impactful
- C. Vehement
- D. Holistic
- E. None of these

Q177. Which of the following words is the antonym of “obsolete”, as highlighted in the given passage?

- A. Contemporary
- B. Archaic
- C. Bygone
- D. Superannuated
- E. None of these.

Direction (Q178-Q181): In each of the questions given below four words are Underlined which may or may not be in their proper place. You are required to interchange these words in order to form meaningfully correct sentences.

Q178. The motto (a) of the US state of New Hampshire is “Live Free or Die”. Appropriately enough, NH is currently the only US state offering legal certification (b) for flying cars. But while such a vehicle sounds like a technology (c) of science fiction, it could soon become a perfectly normal figment (d).

- A. a-c
- B. c-d
- C. b-d
- D. a-b
- E. No interchange required

Q179. The withdrawal (a) down of tensions between Assam and Mizoram, at least at the leadership (b) level, with the respective (c) governments announcing the drawing (d) of FIRs against the Chief Minister of Assam and a Rajya Sabha MP from Mizoram, among other steps, comes as a great relief.

- A. a-d
- B. b-d
- C. a-c and b-d
- D. a-b and c-d
- E. No interchange required

Q180. A day after taking the bold decision to scrap (a) all retrospective tax demands and refund money collected, Prime Minister Narendra Modi said the move shows his government's consistency (b) to provide businesses stability of investment climate (c) and policy commitment (d).

- A. a-c
- B. b-d
- C. a-c and b-d
- D. a-b and c-d
- E. No interchange required

Q181. Happy at a permanent commission for Air Quality Management in the National Capital Region and Adjoining Areas for better coordination, research, regulations (a), and resolution of problems surrounding (b) the air quality index, experts are also wary (c) of the fact that mere identification (d) would not help in the long run.

- A. a-c
- B. b-d
- C. a-d
- D. b-c
- E. No interchange required

Direction (Q182-Q186): Which of the following phrases (A), (B), (C) and (D) can replace the phrase which is underlined so as to make the statement correct grammatically and contextually? If the statement does not need any correction then mark option E as your answer.

Q182. England cruised for a second successive victory at the ICC Twenty20 World Cup, defeating Bangladesh by eight wickets.

- A. cruises on a second successive victory
- B. cruised to a second successive victory
- C. cruise to a second successive victory
- D. crushed to a second successive victory
- E. no replacement required

Q183. The Delhi Disaster Management Authority has issued orders permit schools to reopen, after a gap of 19 months, for students from nursery to Class XII from November 1.

- A. issued orders permitting schools to reopening
- B. issued orders permitting schools to reopen
- C. issue orders permitting schools to reopen
- D. issuing orders permitting schools to reopen
- E. no replacement required

Q184. With limited water resources and increasing water demand, it becomes imperatively to strategize to the sustained use of water in various sectors.

- A. imperial to strategize for the sustained use of water
- B. imperative to strategize for the sustained use of water
- C. imperative to strategize for the sustainable use of water
- D. prior to strategize for the sustained use of water
- E. no replacement required

Q185. Scientists have identified a compound that shows potentially in easing the symptoms of COVID-19 infection in laboratory and animals.

- A. show potential in easing the symptoms
- B. shows potential to easing the symptoms
- C. shows potential in easing the symptoms
- D. showed potential in easy the symptoms
- E. no replacement required

Q186. The Indian team had been defeated host England by 36 runs to lift the T20 Physically Disabled Cricket Series in August last year.

- A. Indian team has being defeated host
- B. Indian team was defeated host
- C. Indian team had defeated host
- D. Indian team had have defeated host
- E. No correction required

Direction (Q187-Q191): Rearrange the following sentences in the proper sequence to form a meaningful paragraph and then answer the questions given below.

- A. But, Mr. Austin's trip preceded an unannounced stop in Kabul where the U.S. is undertaking a major review of its troop's pull-out schedule and peace plan.
- B. The timing of U.S. Secretary of Defense Lloyd Austin's visit to New Delhi over the weekend was significant for many reasons.
- C. As a result, all three areas: bilateral ties, the Indo-Pacific and Afghanistan came up for discussion during talks.
- D. Also, the visit, just after the first ever Quad leaders' summit, confirms the U.S.'s focus on greater maritime cooperation in the Indo-Pacific.
- E. Finally, Mr. Austin was careful not to make any direct reference to Beijing or about the LAC dispute, which New Delhi considers a bilateral issue.
- F. As the first senior ranking official of the Biden administration to meet with the Modi government, his visit this early in the new President's tenure indicates the place India holds.

Q187. Which of the following statements does not form a part of a coherent paragraph, after rearranging the given statements?

- A. B
- B. F
- C. C
- D. D
- E. None is coherent.

Q188. Which of the following pair of statements will appear in a similar sequence after rearrangement, as given in the option?

- A. A-E
- B. C-D
- C. B-F
- D. D-E
- E. A-F

Q189. Which of the following is the SECOND statement after rearrangement?

- A. B
- B. C
- C. F
- D. A
- E. E

Q190. Which of the following is the THIRD statement after rearrangement?

- A. D
- B. A
- C. F
- D. E
- E. C

Q191. Which of the following is the FIFTH statement after rearrangement?

- A. F
- B. C
- C. B
- D. A
- E. E

Direction (Q192-Q196): In each of the following questions, a sentence has been divided into five parts out of which one part is erroneous. You are required to choose the option which is grammatically or contextually incorrect.

Q192. Union Home Minister Amit Shah conducted an (a)/ aerial survey of rain-ravaged areas (b)/ of Uttarakhand to assessing the (c)/ damage which the state government (d)/ has pegged at Rs 7,000 crore. (e)

- A. a
- B. b
- C. c
- D. d
- E. e

Q193. As much as 150 Industrial Training Institutes (ITIs) (a)/ which were upgraded by (b)/ Tata Technologies Limited under (c)/ Karnataka's UDYOGA program are set (d)/ to be inaugurated in two weeks. (e)

- A. a
- B. b
- C. c
- D. d
- E. e

Q194. Excessive rainfall has thrown (a)/ normal life out of gear in Uttarakhand. (b)/ Torrential rainfall and floods (c)/ have lead to food scarcity (d)/ and lack of transportation. (e)

- A. a
- B. b
- C. c
- D. d
- E. e

Q195. The Madhya Pradesh Police arrested (a)/ four people, including (b)/ a professional Kabaddi player, (c)/ for their alleged (d)/ involving in arms trafficking. (e)

- A. a
- B. b
- C. c
- D. d
- E. e

Q196. Addressing the nation, (a)/ Prime Minister Narendra Modi said (b)/ India's vaccination programme (c)/ were science-born, (d)/ science- driven and science-based. (e)

- A. a
- B. b
- C. c
- D. d
- E. e

Direction (Q197-Q200): Given below is an Underlined word followed by 4 sentences. You need to understand whether the sentences are using the word correctly or not. Mark the incorrect sentence with the incorrect word usage as your answer.

Q197. Adamant

- A. The doctors at Apollo hospital had been absolutely adamant that Meena's grandmother was not going to get better.
 - B. Raani is so adamant in her political beliefs that no one can change her mind!
 - C. Kunal is a very sweet, amiable and adamant boy.
 - D. Unemployed youths of this country are adamant about finding a suitable job.
- A. Only B
 - B. Only A
 - C. Only D
 - D. Only C
 - E. All are correct

Q198. Enervate

- A. The lecture on calculus was enervating to the new students.
 - B. If you are idle then it will definitely enervate your progress towards success.
 - C. The energy drink enervated him to such an extent that he ran faster than the others.
 - D. The long journey from Kolkata to Bhubaneswar is quite enervating.
- A. Only A
 - B. Only B
 - C. Only C
 - D. Only D
 - E. All are correct

Q199. Ubiquitous

- A. Digital payments are becoming increasingly ubiquitous.
- B. Greenery is becoming ubiquitous in urbanized towns.
- C. The presence of these men is slowly becoming ubiquitous.
- D. Raghu's ubiquitous influence is always felt by his family.

- A. Only A
- B. Only B
- C. Only C
- D. Only D
- E. All are correct

Q200. Negligent

- A. Piangshuk is quite punctual and negligent when it comes to official works.
- B. I was utterly shocked to find out how negligent Arun had been during these years.
- C. Please do not be negligent in your work else you will suffer.
- D. Pulak seems quite negligent about his health.

- A. Only A
- B. Only B
- C. Only C
- D. Only D
- E. All are correct

Essay Writing

Q1. Write an Essay of about 600-620 words on any one of the following topics: (40 Marks)

- A. Climate Change and its economic impacts on developing countries**
- B. India's own digital currency: E-rupee**
- C. Innovative motivation methods for modern employees aligned with organisation growth**
- D. Multi-linguistic social media accounts for businesses – need?**

Precis Writing

Q2. Make a precis based on the given passage in 180 – 200 words: (30 Marks)

In what became the first celebration of International Women's Day in 1911, more than a century ago, women worldwide gathered to fight for their right to education, work, vote, hold public office, and end discrimination. That same year, the first Model-T car rolled off the assembly line, and the Computing-Tabulating-Recording Company was founded, later renamed IBM. Decades later, British mathematician Alan Turing would first question whether machines can think, and the term artificial intelligence (AI) was coined in 1956.

Women's rights, their economic empowerment, and technology have advanced considerably in the last century. Advances in machine learning, large datasets, and increased computing power have driven AI development in recent years, moving from academic discussions into remarkable real-world applications with real opportunities and challenges for gender equality.

For many, 2022 was the year AI became real. The rise of foundation or general-purpose AI models, including the emergence of very large language models, paved the way for a "generative AI" renaissance, with AI that generates novel content, transposes text-to-video and -image, and offers advanced chatbots accessible to all. AI tools became mainstream with the release of the AI model ChatGPT, which reached about 100 million monthly active users in just two months, making it the fastest-growing consumer application in history.

With AI tools already changing work, education, and leisure in significant ways, we must ask: is today's AI addressing the gender equality issues that have plagued policy makers for decades? While women have gained the right to education, work, vote, hold public office and protection against gender discrimination, technologies play a big part in ensuring those rights are upheld. Are policy makers doing enough to ensure that today's AI systems do not perpetuate yesterday's biases?

Although technologies have evolved, some barriers to gender equality and economic empowerment are still much like the ones women faced over a century ago when the world celebrated the first International Women's Day. In many countries, women still have less access to training, skills, and infrastructure for digital technologies. They are still underrepresented in AI research and development (R&D), while harmful stereotypes and biases embedded in algorithms continue to prompt gender discrimination and limit women's economic potential.

Today, men are leading most cutting-edge AI companies, while female voices animate most Virtual Personal Assistants (VPAs) and advanced humanoid robots – like Alexa and Siri, or robots Sophia, Ameca, Jia Jia, and Nadine. This reflects gender biases at home and in the workplace by reinforcing traditional norms of women as nurturers in supporting roles.

New generative AI tools can also produce overtly sexualized digital avatars or images of women while portraying men as more professional and career oriented. As generative AI and robotics advance, their effects on women's economic and social equality remain to be seen.

Reading Comprehension

Q3. Read the given passage and answer the questions that follow: (30 Marks)

Some economists argue that businesses are using the cost-of-living crisis as an opportunity to generate excessive profits. This isn't just an idle theory. Economists at the European Central Bank (ECB) have some statistical evidence to back it up.

You can only learn so much by breaking down the consumer price index, the traditional measure of rising prices (inflation, let's not forget, is simply the rate at which the prices of the average goods and services we spend most of our money on change each year). That might tell you how much is down to food price inflation, but it can't give you a sense of how much of that given increase in food prices is benefiting workers versus their employers.

Basic economic theory teaches that charging what the market can bear will prompt companies to produce more, constraining prices and ensuring that more people have access to the good that's in short supply. Say you make empanadas, and enough people want to buy them that you can charge \$5 each even though they cost only \$3 to produce. That might allow you to invest in another oven so you can make more empanadas — perhaps so many that you can lower the price to \$4 and sell enough for your net income.

Tempting as it is to blame businesses for what we're suffering through, there's not an enormous amount of evidence from these figures that they are the main culprit. Taxes (in other words the government) contributed much more to inflation in 2021 and into 2022 than business profits.

Now, with Britain facing double-digit inflation, a miserable cost of living crisis and rising interest rates, the above might not be of much consolation. And it's quite possible the numbers may well shift - note that these figures are a little slow to be updated, so we don't know the picture as of the early part of this year.

There is not much disagreement that many companies have marked up goods more than their own rising costs. This is especially evident in industries such as shipping, which had record profits as soaring demand for goods filled up boats, driving up costs for all traded goods. Across the economy, profit margins surged during the pandemic and remained elevated.

Even so, it's a reminder that the data sometimes tells a subtly different story to the mainstream narrative.

- A. How are businesses using the cost-of-living crisis to generate excessive profits?
- B. What is the traditional measure of rising prices?
- C. Why is the consumer price index not sufficient to understand the impact on workers and employers?
- D. What has contributed more to inflation in recent years, business profits or taxes?
- E. In which industries have companies marked up goods more than their rising costs?

Economic and Social Issues

Objective

Directions [Q1 - Q4] - Read the passage given below and answer the following questions

An initiative was launched by Hon'ble Prime Minister on 20 October 2022 at Kevadia, Gujarat, which focuses on bringing about behaviour changes in individuals for combatting climate change. The objective is a global movement for transitioning from a model of destructive and mindless consumption to deliberate and mindful utilization of resources.

In order to further catalyze pan-India advocacy and awareness about this initiative, the MoEFCC has initiated a month-long mass mobilisation drive, which culminated on 5 June 2023 in a mega celebration of World Environment Day. With a view to amplify all efforts to promote its message and to make the drive a success, MoEFCC has included all 99 Ministries and 36 States/UTs, along with their divisions, subordinate organizations, and field offices, to undertake the related activities beginning 5 May 2023.

(This is a recreated passage and not the exact one asked in the exam)

Q1. Which one of the following initiatives has been mentioned in the above paragraph?

- A. Swachh Bharat Mission
- B. Namami Gange Programme
- C. Green Skill Development Programme
- D. Sulabh International Social Movement
- E. Mission LiFE (Lifestyle for Environment)

Q2. Which of the following is not included in the 7-categories of Mission LiFE?

- A. Save water
- B. Save energy
- C. Reduce waste
- D. Plant trees
- E. Healthy lifestyle

Q3. Match the following:

- | | |
|--------------------|----------------------------|
| A. Phase I | 1. Change in policy |
| B. Phase II | 2. Change in supply |
| C Phase III | 3. Change in demand |

- A. A-1, B-2, C-3
- B. A-3, B-2, C-1
- C. A-2, B-3, C-1
- D. A-1, B-3, C-2
- E. A-3, B-1, C-2

Q4. The above-mentioned initiative was announced by Prime Minister at which of the following events?

- A. COP26
- B. G20- Environment and Climate Ministers' Meet
- C. Rio Summit
- D. Paris Environment Conclave
- E. G7 Ministers' Meeting on Climate

Directions [Q5 – Q8] - Read the passage given below and answer the following questions

It is the only global international organization dealing with the rules of trade between nations. At its heart are its agreements, which have been negotiated and signed by the bulk of the world's trading nations and ratified in their parliaments. The goal is to ensure that trade flows as smoothly, predictably and freely as possible. Its Secretariat is located in Geneva, Switzerland, and has an annual budget of approximately CHF 200 million.

From the early days of the Silk Road to the creation of the General Agreement on Tariffs and Trade (GATT) and the birth of this organisation, trade has played an important role in supporting economic development and promoting peaceful relations among nations. Decisions in the organisation are generally taken by consensus of the entire membership.

(This is a recreated passage and not the exact one asked in the exam)

Q5. Which round of talks has resulted into the creation of the organisation mentioned in the given passage?

- A. Geneva Round
- B. Doha Round
- C. Uruguay round
- D. Bretton Woods Round
- E. Paris Round

Q6. What is the establishment year of the organisation mentioned in the given passage?

- A. 1st October 1995
- B. 1st March 1985
- C. 1st July 1944
- D. 15th January 1975
- E. 1st January 1995

Q7. Who among the following is the Director-General of the organisation mentioned in the given passage?

- A. Roy Santana
- B. Arthur Dunkel
- C. Ngozi Okonjo-Iweala
- D. Catherine Russell
- E. Audrey Azoulay

Q8. Which of the following is the topmost decision-making body of the World Trade Organization, which usually meets every two years?

- A. Board of Directors
- B. Ministerial Conference
- C. Director General
- D. General Council
- E. Members Committee

Directions [Q9 – Q12] - Read the passage given below and answer the following questions

The report's database contains selected macroeconomic data series, presenting the organisations' staff's analysis and projections of economic developments at the global level, in major country groups and in many individual countries. The analysis and projections contained in the report are integral elements of the organisation's surveillance of economic developments and policies in its member countries, of developments in international financial markets, and of the global economic system. The reports' database is created during the biannual exercise, which begins in _____ and _____ of each year and results in the April and September/October publication.

In the latest edition of the report, the baseline forecast is for growth to fall from 3.4 percent in 2022 to 2.8 percent in 2023, before settling at 3.0 percent in 2024. Advanced economies are expected to see an especially pronounced growth slowdown, from 2.7 percent in 2022 to _____ in 2023.

(This is a recreated passage and not the exact one asked in the exam)

Q9. Which one of the following reports has been mentioned in the above passage?

- A. OECD Economic Outlook
- B. World Bank's Global Economic Prospects Report
- C. United Nations' World Economic Situation and Prospects (WESP) Report
- D. IMF's World Economic Outlook
- E. None of the above

Q10. As per the report mentioned in the passage, advanced economies are expected to see an especially pronounced growth slowdown, from 2.7 percent in 2022 to _____ percent in 2023.

- A. 8%
- B. 3%
- C. 1.3%
- D. 2.0%
- E. 1.5%

Q11. The database for the above report is created during the biannual exercise, which begins in ____ and ____ of each year and results in the April and September/October.

- A. May and October
- B. April and September
- C. March and August
- D. July and December
- E. January and June

Q12. Which of the following are the 3 critical missions of IMF?

- 1. Furthering international monetary cooperation
- 2. Encouraging the expansion of trade and economic growth
- 3. Discouraging policies that would harm prosperity

- A. Both 1 and 3
- B. Only 1
- C. Both 2 and 3
- D. Only 3
- E. 1, 2 and 3

Directions [Q13 – Q16] - Read the passage given below and answer the following questions

Government has focused on developing tribal human resource with a holistic approach over the last 9 years. Government has launched a mission which will saturate PVTG families and habitations with basic facilities and stressed on education for PVTG's. A fund of Rs 15,000 crore for the next three years has been allocated for the socio-economic development of the group. Tribal communities are often identified by some specific signs such as primitive traits, distinctive culture, geographical isolation, shyness to contact with the community at large and backwardness. PVTGs are more vulnerable among the tribal groups. Due to this factor, more developed and assertive tribal groups take a major chunk of the tribal development funds, because of which PVTGs need more funds directed for their development.

(This is a recreated passage and not the exact one asked in the exam)

Q13. Which one of the following schemes has been mentioned in the above passage?

- A. Pradhan Mantri Adi Adarsh Gram Yojna
- B. Pradhan Mantri PVTG Development Mission

What Next?

1. **Identify Right Source:** Follow the best study resources (books, online courses, videos, etc.) for each topic on the list. Do not follow multiple sources for the same topic but rather follow good sources multiple times.
2. **Topic Prioritization:** Review the document to identify key topics that require special attention. Prioritize your study schedule based on the significance of each topic in the syllabus. Ensure a balanced approach, allocating more time to critical subjects.
3. **Width of Syllabus:** Merely going through the syllabus is not enough; Regularly revisit the document to reassess what topics actually need to be covered.
4. **Depth of Understanding:** Recognize the varying depths at which topics should be covered. While some concepts demand a broad understanding, others require a more in-depth analysis. Tailor your study approach, accordingly, allocating more time to complex topics that demand deeper comprehension.

About Us

We are a passionate team of experienced professionals who understand the challenges of aspirants preparing for government jobs. Our vision is to *"create a nurturing ecosystem for the aspirants so that they can feel safe, guided, and mentored."*
